About This Game

This is an FPS action game, in which you will become Santa on Christmas Eve!
It happens that Santa is late for holiday. Trying his best he is rushing to decorate houses and streets, and of course give presents.
Your main assistant is the Magic Christmas Cannon. You will need to gather the ammunition for it in the warehouse before the departure.
Next will begin a fast gameplay, where in limited time you will shoot the houses by gifts, garlands and Christmas trees to score points.
The more points - the you are better Santa!
You are running out of time, Christmas can't wait! Ho Ho Ho

Let's start by saying that I reccomend this game. It's fun and entertaining. Right off the bat the intro music i couldn't help but laugh in a good way. The music is awsome. I enjoy the graphics and the concept of simplicity of the game. The only con I'd say is that there wasnt clear explantion on what to when you get to the street. I have only played 20 minutes so far and I'm sure I will go back and play more. Simply watch the video and make a judgement youself , but way to go Pickle Drugs A++++++

Devlog 8:
Hello Fellow Buoyangiers!

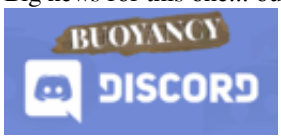
We have a new Devlog for you. New arts, new animations, new waters, and new UI.

Check it out here on our website.
https://buoyancygame.com/2019/03/28/devlog-8/. Buoyancy **Devlog 10**:
Hey Bouyanchies,
Our latest and maybe greatest devlog is out now.
We have some new art to show, and a quick recap of our iFest 2019 experience.

Check it out here:
https://buoyancygame.com/2019/05/31/devlog-10-ifest-2019-moar-art/. **Devlog 7 - Discord and 1st Steam Devlog**:
Hello fellow Buoyancies

This is the first Devlog going live on Steam! In case you weren't aware we post monthly Devlogs like all those good indie game studios. Devlogs are usually posted at the end of the month.

Big news for this one... our Discord server is open to the public!



[discord.gg]
Link: https://discord.gg/xVxQP3h

Anyway we are excited to be here on Steam. You can read the main Devlog at our website:
https://buoyancygame.com/2019/02/25/devlog-7-discord-and-1st-steam-devlog/
. **Devlog 9**:
Hello Bolauyangies,

April is over and here is the devlog for April
https://buoyancygame.com/2019/04/29/devlog-9/

It's a bit short on features because the devs have been mostly focusing on bugs, stability, and all that cool stuff.
